The Gevirtz School leads:

A Santa Barbara County Pre-K — Grade 20 S.T.E.M. Council

Science, Technology, Engineering, Mathematics

Goals of the Council

- Support alignment and expert implementation of STEM curriculum
- Increase the number of exceptional STEM teachers
- Increase the number of under-represented youth in STEM majors at community colleges and universities
- Increase a college-going/profession-aspiring culture for every child
- Provide advanced opportunities for talented students

Resources for STEM Education

- P-12 Educators, Leaders, Parents, and Students
- Community Members and Organizations
- Universities and Community Colleges
- Business and Industry

Building a Robust System for STEM Excellence
